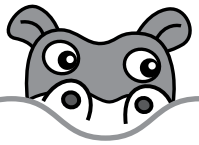
Climate change - surface water drainage survey



Look at the material that is used to cover your driveway at home.
Ask other family members too and include this data in the chart below.

School:	Class:	Teacher:	Date:
Name of family member	Material used on drive	Do we think this is a suitable material to park a car on? Explain why.	

Produce graph to show different materials used to pave drives.
Which material is the most popular? Is it the best to park a car on?
Which material allows water to be absorbed so is kinder to the environment?
Which material does not allow water to pass through, and drains off into the sewers?
