

Dear Aaron,
I am writing to say that I had a brilliant day. It was great. Thank you for showing us a round.

The jigsaw was great it was easy is well. I didn't know that we waste so much water. I'm lucky I don't have a sprinkler.

I thought that people would beg for water. The story you told about the lady couldn't feed her baby any, clean water was very sad. I was amazed when you said we had the same amount of water when it was the dinosaurs time. I already know that people are increasing so much.

The experiment was great because now I know how much water I waste because of one tap. I better tell that to my parents.

The treasure hunt was GREAT! I couldn't find all of the things. Are you sure that there is a bear un the mountains?

Thank you for letting us have lunch in the other room.

The Sludgesons was great expect when Mrs. Coles had to pour the dog biscuits in the tank. It was so gross.

The tour was great I was scared when I looked throw the holes. There was so much waste. You are lucky that your key didn't fall down. Did you really see the pipe explode? If I was here I would laugh and laugh. Although it would be gross. How do the farmers crops grow just by using fertiliser its amazing and gross. The bubbly aero was so funny it just popped all the time. The good bacteria is amazing it, could eat waste. Do the bacteria have the same oxygen as us or do they have different sort of oxygen? How come the big pipe that carries waste so warm?

I liked the huge whisk because it moves slowly and you don't notice it is moving. The water is pumped so hard and it looked a little bit like wee. It is also pumped into Penarth.

Yours Sincerely

Dear Aaron,

Thank you for teaching me a lot of things of teaching me a lot more about water. Now I think more about using water. I hope I can come down there again.

I really enjoyed myself. When we had to go home I was disappointed. and I really liked my water bottle and my blue thing that you stick on the wall.

When we got back home my teacher's told Mr. Watkins that we good and Mr. Watkins was really impressed. I told my mother and father that I had great fun. and I told them that I stood on top of water full of poo and fat. They said I was really brave. I also told them that we were in a classroom make the water dirty and at the end we chose Mrs. Lewis to pour the fake poo and pee in and my parent thought that it was disgusting but then I told it was dog biscuits and coffee.

Thank you

Dear Sue and Aaron

Thank you Sue for taking us to the pond and thank you for letting us pond dip it was really really fun and thank you for letting us identify them.

Thank you Aaron for the orienteering it was very very fun but very tiring and I was very happy but it was hard finding the letters.
